

RISE

**You're told you can't do it, too far you can't reach it
Fight for the chance, show 'em what you're made of
Dreams have no price tag, never come cheap
Only you can chase yours, you've got to believe**

Deep down inside, you know you got this
You're ready to shine, it's your moment
To Light up the world with that fire in your eyes
like a powerful Phoenix, it's your time to rise

**Sometimes you get set back, sometimes you get rattled
Dust off your old hat and get back in that saddle
Tough times make you strong, look at all you've done
You waited so long, it's finally come**

Deep down inside, you know you got this
You're ready to shine, it's your moment
To Light up the world with that fire in your eyes
like a powerful Phoenix, it's your time to rise

Bridge :

**Don't be afraid
Make some mistakes
Grab onto your fate and
Dare to be great**
